

Reclaim your conversations

Introducing a family of hearing aids that will get you back to participating in conversations, even in the most challenging listening situations.

Plus, your hearing aids will fit right in with your digital world, offering easy connections to your favourite tech and media. And our rechargeable options will keep you going all day long, from sunup to sundown worry-free.

We'll work together to make sure your journey of buying and wearing hearing aids is empowering, easy and flexible.

So get ready to love the experience.

More power to you

Our rechargeable solutions will keep working even when you're ready for bed. And they'll be ready again in the morning before you are, thanks to proven lithium-ion rechargeable technology you can rely on.

Moxi Move R charger

Stride P R charger

Moxi Move R charger is also used with Moxi Jump R T.

Connect to your favourite tech

You can enjoy easy, direct connections with the people you care about, with hands-free phone calls, video calls, Skype and FaceTime® – on all phones and to both ears.* It's simple – when your phone rings in your hearing aids just press the button on them and you're in the conversation. There's no need to hold a phone.

And with stereo media streaming you can connect to your favourite media like podcasts, music and online video.

*Smartphones and traditional mobile phones with a compatible Bluetooth® Hands-Free Profile.
†Not available on Insera 312 Omni or Insera 10A Omni hearing aids.

An outstanding line-up

All of our hearing aids are stylish, comfortable, and easy to use. Together we'll choose the one that's best for you.

Discover what's next

Hearing aids you'll love

Professional care where you want it. Welcome advice when you need it.

You'll love the convenience and freedom to choose how you receive hearing care with **remote adjust**. Enjoy professional fine-tuning adjustments for your hearing aids without having to go into the clinic.

Feel confident using and caring for your new hearing aids thanks to timely tips and advice sent directly to you with **coach**.

And share impressions on how your hearing aids are performing in the real world to help us quickly address issues and further personalize your solution.

All this – plus the ability to control your hearing aids – is at your fingertips with the Remote Plus app:

*For the use of the Remote Plus app, Unitron hearing aids with Bluetooth connectivity are required. The Remote Plus app works on Apple smartphones with iOS 12 or newer and Android smartphones with version 7 or newer. App Store badge is a trademark of Apple Inc., registered in the U.S. and other countries. Google Play and the Google Play logo are trademarks of Google LLC.

Elevate your experience with accessories

TV Connector

Enjoy easy wireless connections to your favourite tech to watch shows and movies in high-quality stereo sound. With the TV Connector, the volume is comfortable for you, and everyone else watching too.

Remote Control

Discreetly adjust volume and switch programs at your convenience.

PartnerMic

This lapel-worn** microphone is ideal for one-to-one conversations in noisy environments or at a distance.

Need more help in challenging listening situations like meetings or conversations in noise or over distance?

Ask your hearing healthcare professional if a Roger™ device could be a good fit for you.

**The PartnerMic is meant to be worn by the person you are having a conversation with.

Discover your technology level

Different technology levels are available for your hearing aids. We'll work together to choose the one that best matches your listening lifestyle and needs.

Totally future-proof hearing aids

If your hearing needs change in the future, you can upgrade your hearing aids without having to buy a brand new pair with **FLEX:UPGRADE™**

	WHAT'S INCLUDED	WHAT YOU'RE MISSING
Discover Next 9 ★★★★★	Premium performance in 7 environments and the most sophisticated features that let you focus on speech and know where it's coming from in crowds and background noise (where you spend ____% of your time). Plus enjoy improved awareness of where sounds come from and the ability to hear in quiet as well as delightful music, automatically.	Nothing. You've got everything you need.
Discover Next 7 ★★★★	Advanced performance in 6 environments with a great feature that will help you focus on speech coming from the front and sides in challenging situations, improved awareness of where sounds come from and the ability to hear in quiet situations, plus an automatic music program.	The most sophisticated feature to help you know where sounds are coming from and understand conversations in crowds and noise.
Discover Next 5 ★★★	Standard performance in 4 environments that includes a feature to help you to know where sounds are coming from and the ability to hear in quiet environments.	The ability for the hearing aids to focus on speech coming from different directions in noisy situations and to automatically engage a music program.
Discover Next 3 ★★	The basics in 2 environments. Limited ability to adjust automatically to accommodate multiple listening environments.	Everything else.
