life is on

The wonder of sound

Phonak Audéo Paradise is a true wonder of sound.

When creating our latest hearing solution, we turned to nature for inspiration. Nature is the source of so many sounds that can soothe, relax and comfort us. We regard hearing as being something that we naturally do. Having the ability to hear is such an integral part of our existence and fundamental for our overall well-being. What better way to rediscover sound than with a hearing aid inspired by nature itself. After all, **there's nothing like the sound of Paradise.**

An unrivaled hearing experience

Phonak Audéo Paradise is a result of decades of technological expertise, innovation and unwavering passion.

It embodies our drive and determination to develop a hearing aid, that we believe, is the best possible solution for hearing aid wearers.

To achieve this, we took our learnings from its predecessor, our best-selling hearing aid, and made **Phonak Paradise even better.**

Comprised of all new hardware, Paradise takes hearing performance to the next-level with several new features. The result?

A hearing aid that delivers an unrivaled hearing experience:

- Crisp natural sound
- Brilliant speech understanding
- Personalized noise cancelling
- Empowering smart apps
- Connects to smartphones, TV and more
- Made for all Android and iOS
- New Tap Control for easy access to Bluetooth® functionalities

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Sonova AG is under license.

Crisp natural sound

Our ability to hear all the nuances of our sound environment is such an integral part of our existence. Being able to hear well, adds to our sense of connection and engagement which ultimately contributes to our overall well-being.

The way we hear is a complex process – a real wonder of nature. It starts at the cochlea, where the sound is first perceived, and finishes at the brain where we experience the sound.

We have taken nature as inspiration when creating Audéo Paradise. Our intention is simple – to create a hearing aid that delivers crisp natural sound for you to enjoy the wonders of the world as they should be heard.

Brilliant speech understanding

Understanding someone who is speaking softly or speaking from a distance in a quiet environment is challenging. Phonak Audéo Paradise approaches this challenge by boosting soft-level speech with an innovative feature called Speech Enhancer. Rediscover the joy of communicating with friends, colleagues or loved ones.

Personalized noise cancelling

How much effort does it take to follow a conversation when speech is coming from the front and noise from the side and back? This can often vary depending on the type of room you are in, or even how you feel at the time. myPhonak 4.0 app allows you to make the most out of your Paradise hearing aids. It offers various controls and functionalities that allows you to personalize the hearing aid settings in real time. Restaurant too noisy? Not a problem, just increase the noise cancellation strength for comfort.

Empowering smart apps

It's not just another app – it's the smart way to control your Phonak Paradise hearing aids, access useful features and personalize your settings. Download the **myPhonak app** (Google Play or App Store) and get the most out of your hearing aids. Here's a glimpse of what is possible ...

Remote Control allows you to adjust and control your hearing aids in real time. Imagine the convenience of being able to adjust the level of the Dynamic Noise Cancellation to make it easier to have a conversation with a friend in a noisy restaurant. You can also configure Tap Control to your preference.

Remote Support* allows your hearing care professional to fit and adjust your hearing aids in real time. This is helpful in situations where you can't make it for a personal consultation or simply want your hearing care professional to optimize your hearing aids in real-life situations and not in the clinic alone.

* Available in selected markets only.

Connects to smartphones, TV and more

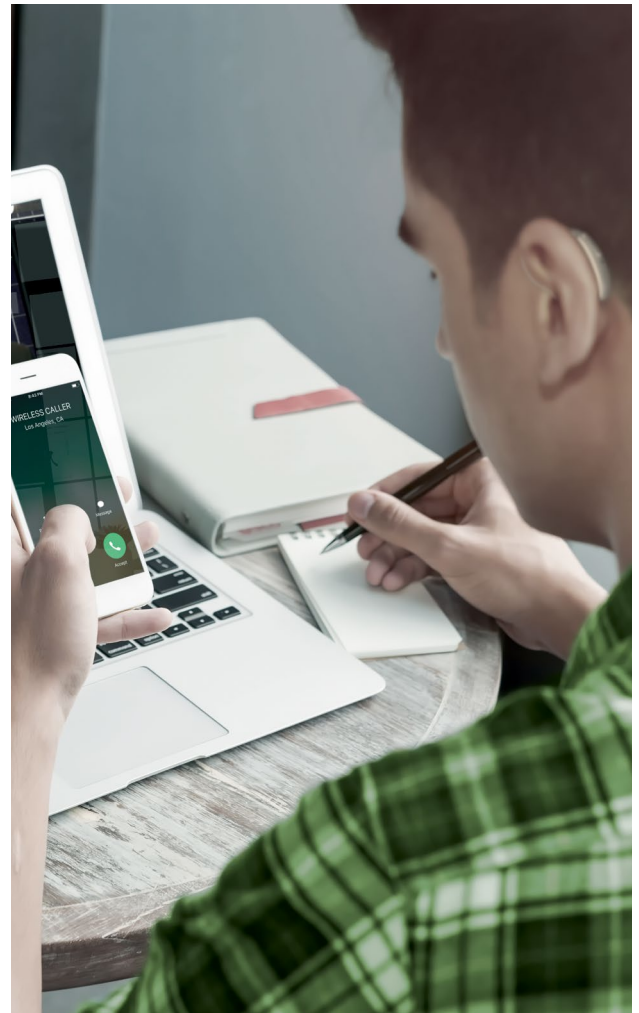

Made for all

Phonak Paradise connects directly to your iOS®, Android™ or other Bluetooth-enabled devices so you can stream audio directly to your hearing aids.

Multiple Bluetooth connections

Additionally, you can enjoy even more connectivity. Phonak Paradise can be simultaneously paired to eight Bluetooth enabled devices and actively connected to two of those devices. In today's virtually connected world, having more connections is an added convenience.

Paradise also features AirStream™ technology that supports accessories such as the Phonak TV Connector for direct streaming from any TV or entertainment system. Because Paradise can distinguish between streamed speech and music, you can enjoy excellent sound quality for more joy of listening.

New Tap Control for easy access to Bluetooth functionalities

Imagine this ... just by tapping your ear, you can handle phone calls, music streaming or voice assistants. A motion sensor in the hearing aid enables an effortless way to answer a phone call, to activate your voice assistant and to pause or continue music streaming.

To complement the Tap Control, Paradise utilizes the built-in microphone to allow you to enjoy true hands-free phone calls and voice assistant activation.

A piece of Paradise for you

Find a Paradise that suits your style, mood, or personality. There are seven different colours and even a rechargeable option to choose from.

Take the first step to improve your overall well-being with Phonak Paradise

When you hear well, you are well equipped to embrace the life you want. Growing evidence shows that treating hearing loss can positively impact your social-emotional, cognitive and physical well-being.¹

Social-emotional well-being

Hearing well allows us to be socially active, connect with others, and communicate effectively – without barriers.

Cognitive well-being

The brain plays a crucial role in listening and speech understanding – it's important to keep it stimulated. That's where hearing aids come into play.

Physical well-being

Hearing well provides you with greater environmental awareness fostering feelings of security and confidence.

There's nothing like the sound of Paradise
