Silk X

SIGNIA SILK X HEARING ALL ABOUT YOU

DISCRETION

So small that it's almost invisible in the ear, Signia's Silk X delivers an exceptional hearing experience. One of the world's smallest hearing aids, you can wear it with confidence, safe in the knowledge that no one will even notice you're wearing it.

Ready to wear, Silk X is fitted with highly adaptable soft-silicone Click Sleeves™ that simply click onto the hearing aids for a secure and comfortable fit.

TECHNOLOGY

CONVENIENCE

SIGNIA APP

TAILOR-MADE, WITHOUT THE WAIT

Silk X is ready to wear on the spot without any wait time thanks to its soft-silicone sleeves that allow it to hide comfortably in your ear.

ALL YOU HEAR, CRYSTAL CLEAR

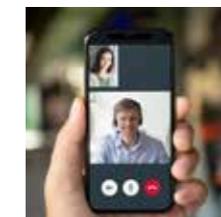

Whether you're on a busy street, working in an open concept office, dining in a crowded restaurant or wherever there may be a high level of ambient noise, having a conversation requires significant concentration.

Thanks to its Signia Xperience technology, Silk X delivers true-to-life sound and speech comprehension to meet your hearing needs, even in noisy environments. You hear what matters to you, all day long, in every situation.

PERFECTLY POSITIONED FOR PHONE CALLS AND MUSIC

Unlike hearing aids that sit behind the ear, Silk X's microphones pick up sound inside the ear canal. This enables you to make phone calls and listen to music in the way you're used to, including with over-ear headphones.

PERSONAL SUPPORT AT YOUR FINGERTIPS

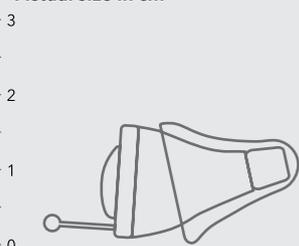

TeleCare

Thanks to Signia's TeleCare remote support, you can get direct help from your hearing care professional via the Signia app, wherever you are.

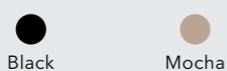

Remote control

You can control the volume and other settings discreetly via the Signia app on your smartphone or the miniPocket on your key ring.

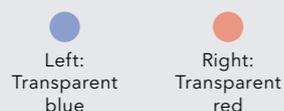

Actual size in cm

Faceplate colours

Shell colours

Sleeves

Sleeves come in four different sizes and in non-vented and vented options suitable for most ear anatomies and hearing needs.

CROS Silk X

Untreatable hearing loss in one ear shouldn't stop you hearing what matters to you. CROS Silk X ensures brilliant sound so you can hear conversations and sounds coming from both sides.

Tinnitus options

If you suffer from tinnitus, Silk X features a range of therapy options to make your life more comfortable.¹

¹ No tinnitus option for 1X technology level

Compatible with Android and iOS. The app is free of charge.

Ask your hearing care professional for more information on Silk X hearing aids, useful accessories and the Signia app.
